

SYREN JULIA SPORTING 12-GAUGE, 30" SHOTGUN

Women are flocking to the field like never before. While it's encouraging that manufacturers are stepping up in the outdoor space to create women-specific gear, until recently the shotgun adage has been one size fits most, which is a bit exhausting for those of us who can't quite find a shotgun that's a perfect match. Enter the new Julia Sporting 12-gauge (\$6,050) from Syren, a division of Caesar Guerini USA. Made specifically for women, the Julia is spectacularly adorned with a 24-karat gold design that showcases a long-haired woman scattering dandelions on its case-colored action sides. The goldwork continues along the top tang, trigger guard and lever. These details are breathtaking, but it was the stock that made this my choice for a Gray's Best. Its dimensions are higher and shorter than a typical men's stock, making it a better match for women. With a 13.9" pull and a 1.5" drop at the comb, the Julia proved more like an extension of my arm than a shotgun. Every detail of the Julia was appealing, from the accuracy, to the fit, to the design. A must for any woman who truly enjoys a beautiful shotgun and a treasure for your collection. www.syrenusa.com
